

ECOVEM AT SAMUEXPO 2022!

Also for 2022 edition, ECOVEM's Italian partner Cluster COMET has been co-organiser of SAMUEXPO, a reference exhibition for the engineering and Industry 4.0 sector, held from 31 March to 2 April 2022 in Pordenone.

Only on Thursday 31 March, more than 500 students, from all over Friuli Venezia Giulia Region, visited our booth and participated to our guide tour through the local SMEs.

Youngsters from technical and vocational schools had the opportunity to chat with our entrepreneurs, for some of them, an important occasion to get acquainted with the ECOVEM project and the importance of microelectronics!

“School and enterprise: an (inter)connected system” is Cluster COMET motto.
